Book Hooks Demonstration Antioch Lake Sunday

Five Hundred Persons At Fishing College, Boy Gets Frostbite

William Brook was able to practice what he preached Sunday afternoon when, during the Fishing college at Antioch lake, he caught a bass while demonstrating the art of using the spinning rod and reel.

"You use it like this," announced Brook as he cast the bait without the sign of a back-lash, "and then you" but he never finished his sentence because of his efforts to land the bass.

Students crowded around him in getting information on the new type of rod and reel and the kind of bait he used.

Five hundred persons attended the college in which experts gave instruction in all kinds of fishing. The crowd was less than the State Conservation department expected, but the people were there to learn and not merely be amused.

Dean of the faculty was Mayor James McMillen who introduced the speakers. Among them was D. William Starrett, aquatics biologist of the Natural History Survey, Springfield, and William Cullerton, Chicago, of the Institute of Fishing, who demonstrated accuracy in bait casting.

Other "profs" for the course were Edward Sorenson, Antioch resort owner; Walter Opal, Antioch contractor; Robert Brown, Waukegan; R. C. Carson, Antioch sports goods dealer; Russell Purcell, Antioch; Bill Haling, Grass lake.

Robert Wilton, president of the Lions club which sponsored the event, gave the welcome address. Two-year-old Donnie Major of Grass lake, in the kindergarten section, suffered frost bite although it was one of the hottest days so far this summer. In his attempt to cool off he sat too long on a chunk of ice that was brought there for demonstration of ice fishing.

Chicago Policy King Critically Injured in Car Crash on Rt. 45

Sam (The Mouse) Manno, 37, Chicago policy racket operator, was critically injured early yesterday morning when his northbound car turned over and skidded with him underneath on Rte. 45 a mile north of Rte. 173.

The Antioch Rescue squad rushed him to Victory Memorial hospital where it was said that his right arm was broken and his face cut.

The 1951 Chrysler convertible club coupe ran off the pavement on the east shoulder, then skidded sideways for 157 yards across the pavement onto the wet shoulder.

Deputy sheriffs said that Manno apparently was thrown across the seat of the car and out the right door as the car hit the west shoulder. He was then dragged for some distance beneath the skidding auto which knocked down 50 yards of barbed wire fence and eight fence posts.

Manno, a resident of 704 Morgan st. in Chicago, had \$1,000 in his possession at the time of the accident according to deputies who said he was identified only by the bill of sale for the car and the Chicago receipt for the car's vehicle tag.

Philip P. Yurgens, 71 Dies of Heart Attack

Philip P. Yurgens, 71, Cedar Lake Pt., Lake Villa, died suddenly of a heart attack Wednesday, July 18 at 1 p.m. at his home.

He was born May 26, 1880 in Estonia, coming to this country in 1902, making his home in Chicago until coming to Lake Villa in 1947.

He was a retired flat janitor. Survivors include his wife, Caroline M., one daughter, Mrs. Dorothy Gollman; a son Philip J. of Chicago, one brother Carl G. of Oak Park, and 8 grandchildren.

Funeral services will be held at 8 p.m. Saturday at the Matz funeral home, 3440 Central Ave. Friends are invited after 7 p.m. Thursday. Burial will be in Irving Park Cemetery.

The Legion auxiliary will have a bazaar sale at 8 a.m. Saturday at the Ford garage.

Rush On to Purchase Vehicle License Tags

Police chief Walter Scott said there has been a rush to get vehicle tags since he put out a warning last week. He said that the water user lists are being used in checking against the car license list furnished by the state in checking those motorists who should get the \$5 stickers.

Scott said that there are approximately 500 locally owned passenger cars and trucks. Before the year is out few if any will have escaped the observance of the police as to whether they have complied with the village law.

Horse Show Returns to Lake County Fair After Several Years' Absence

Plan Fireworks Spectacle For Annual Exhibit At Wauconda

For the first time in several years the Lake County Fair will feature a horse show this year. For several years the County Fair boasted one of the most spectacular horse shows in this part of the country. Due to a lack of proper facilities the horse show was discontinued.

Arrangements are being made this year to stage a show that should thrill the thousands of fair visitors.

The Lake County Fair will open on Thursday, August 2 and continue through Sunday, August 5 at Wauconda.

For the first time in Lake County fair history a huge, brilliant fireworks display will be set off on Friday and Saturday evenings. This spectacular display will be arranged by one of America's foremost pyrotechnic artists. It promises to be one of the greatest fireworks displays ever staged in Lake County.

The director have arranged with the Barrington Square Dance troupe to stage their famous square dance performance. This group has become nationally known for its ability to do the square dance in imitable style.

The Lake County Fair has been planned for everyone's enjoyment. Those who are looking for thrilling features will find it at the fair. For those who like the genuine rural atmosphere with its tent-aftent of Lake County's best livestock, and the thousands of exhibits of flowers, vegetables, grains, fine arts, domestic arts, culinary arts, they will find it at the 1951 Lake County Fair.

McHenry to Elect Queen For Marine Day Aug. 5

McHenry is going to hold its first election for the new municipal office of "Queen of Marine Day" on July 21st.

Henceforth, the queen will hold a position of dignity and responsibility for one year. During her tenure of office she will act as an official greeter and good-will emissary for the town.

Six civic organizations have entered candidates for the office. Kiwanis Club of McHenry township got a head start for their candidate Rita Conway by being the first organization to file a petition. Rita's campaign is well under way and her sponsor plans to stage a very active campaign in her behalf featuring sound truck advertising and an old fashioned torch parade on the eve of election.

On August 5, McHenry will stage its fourth annual Marine Day festival. There will be a colorful parade in the morning and official power boat races on the Fox river in the afternoon under the auspices of the American Power Boat association. Leading racers will vie for top honors and prizes in the hydro plane boat races and various outboard motor races.

Channel Lake Community To Have Carnival July 28

The Channel Lake Community club will have its summer carnival Sunday, July 28 from 2 p.m. until night, at the Channel Lake school grounds. Profits will be for the benefit of the school lunches.

Entertainment will comprise of pony rides, fortune telling, bingo, dart games, and food booths.

Various organizations from Channel lake will be represented including Boy Scout, troop 86; Cub Scouts, and Channel Lake 4-H club. The event is public and no admission will be charged.

The Legion auxiliary will have a bazaar sale at 8 a.m. Saturday at the Ford garage.

Fishing Holds up Good In Chain O' Lakes Area Conservation Men Say

Fishing in the area around the Chain O' Lakes region has held up remarkably well, according to Edward P. Sullivan, of the law enforcement headquarters at Lake Villa. All of the rainy weather this year apparently has not hindered the willingness of the fish to bite.

The perch are biting very good along the shore of Lake Michigan.

In the Chain-of-Lakes area bass, pickerel and bluegills have been biting good. Sullivan said he fished Grass lake Monday evening and took five large-mouth bass. West Loon lake was reported good for pickerel. Meyers bay and north shore of Nippersink lake produced some good bass and pickerel.

Leo Jason of 2623 W. Palmer st., Chicago caught an 11½-pound pickerel in Fox Lake, using large chubs as bait.

Best places to fish are along the shore line, edges of weed beds and in pockets of open water in the weed beds. Nearly all of the lakes in the area are producing fish, the conservation department reports. Streams and rivers are high and muddy and produce very few fish other than catfish.

Senate bill 429, now in Illinois law, lifts the season and size on large-mouth bass. The daily limit is 10 and the possession limit 20. The law does not affect the Kentucky, or spotted smallmouth bass which has a season from June 15 to April 30.

Tigers, Yanks Win One In Little Baseball Play Humbling Cubs, Giants

Wednesday, July 11, brrrrr it was cold, but a goodly crowd of parents and friends of the players were out to see the game between the Cubs and Yanks, in spite of the cold.

The Cubs received a "trouncing" by the Yanks. Said Tod Mapleton, "These boys of mine want to walk to victory on the back of Edmundson." He had Thompson pitching the first two innings, who let in nine runs. Then Barnstable was sent in for the next two innings, who let seven runs. The next two innings pitched by Edmundson, saw only one Yank cross home plate. The Cubs floundered around the field creating thirteen errors until Edmundson came in to stop the Yanks.

The Yanks finally found a good line-up. Scully, at second with Zatoris pitching corrected the big weakness the Yanks had, that was the hole between first and second.

900 Attend Open House At Cermak and Lahti Offices on Saturday

More than 900 persons visited the offices of Charles Cermak, realtor, and insurance man, and W. V. (Bill) Lahti, Shell oil dealer, at their open house Saturday at 400½ Lake st.

Twenty-five floral presentations almost turned the offices into a flower shop.

Cake and punch were served to the visitors and 700 yo-yos given to children. Letter openers and ash trays were given out also as souvenirs.

Special gifts were three comprehensive personal liability policies from Cermak and 150 gallons of oil from Lahti.

Cedar Lake Service Station Had Successful Opening Last Weekend

The grand opening of the Cedar Lake Service station and lunch room at Rte. 21 and Petite Friday and Saturday was a huge success. Between 1,500 and 2,000 persons visited the new business place opened by Arthur Storch and Arthur Fortmann.

Six hundred roses were given to the ladies, balloons, candy and ice cream were given to the children. Special gifts were auto products and a 90-day offer on a grease job with purchase of 10 gallons of gasoline.

Four special representatives of the D-X gasoline company assisted in the reception of the guests.

Legion Carnival Success
Favored by good weather the American Legion carnival last week was a success and the veterans have a nest egg for their year's activities.

Don't Be Accident Prone

Horan Starts Collection Of Town Taxes Today, After Month's Delay

Gravel Tax Absent, School Costs Up in Several Districts

More than a month late this year because of a court decision which reverted the process of tax handling, Antioch Town Collector John Horan began his tax collection today at the Antioch First National bank. Next week he will be at the Antioch State bank.

Horan, serving as deputy collector and Mrs. Frank Kennedy, will assist Horan again in his work which will last until Sept. 1, after which bills must be paid at Waukegan.

The gravel road tax is absent this year, but will be back on the tax bill next year. Most of the in-

District Fire School Arranged for Antioch July 30, 31, Aug. 1

The Illinois State Fire School will send its instructors to Antioch for a district fire school on July 30, 31, and Aug. 1, the local fire department has been informed.

With many firemen unable to go to Urbana to take instruction, the state is taking instruction to the departments.

Approximately 10 departments in the northern part of Lake and McHenry counties will participate, taking their instruction evenings from 7 to 10 o'clock.

The experts will teach them latest methods of fire fighting and control.

Blackboard instruction will be in the fire station here and the outdoor demonstrations probably will be east of the Soo line tracks.

Chief Edgar Simonsen was out of the village and detailed information on the event will be given when he returns.

Williams and Broadway Get Blacktop Paving

The work of blacktopping Broadway which recently was widened and parking meters installed has been completed and work is in progress on Williams st.

The old pavement at Williams street is being scarified and a primer put on followed by two coats of asphalt which will give it a fine blacktop pavement for a distance between 800 and 1,000 feet.

Williams street already has heavy traffic to the dairy and other places east of Main st. near the Soo line tracks and the new pavement like that at Broadway will produce even more traffic.

Dompke's Open Gift Shop As an Addition to Inn

Josephine and Ed Dompke former owners of the Norshore resort at Lake Catherine are doing a good business through the addition of a gift, novelty, and toy shop at their new location at Rte. 21 and Grass Lake rd.

Known as Loon Lake Inn, the tavern was opened on July 4, and the new addition was opened last week.

FARM SAFETY WEEK JULY 22-28

Thieves Loot Antioch Garage Wed. Night; Loss Is More Than \$1,000

Gain Entrance Thru Shops Of Northern Ill. Mfg. Co.

Antioch Garage, Inc., owned and operated by Wm. A. Rosing and Son, Ford Dealers, was burglarized last night (Wednesday) by thieves who gained entrance by breaking a window in the basement of the building in the room occupied by Northern Illinois Manufacturing company, and then breaking through a transite partition into the main basement of the building. From there they gained access to the first floor by coming up an outside stairway and breaking a large glass which divides the main workshop from the frame room.

Once inside the thieves were able to open outside doors on the east end of the building from the body and paint shop.

Although no close estimate of the loss can be made without a complete check of the inventory, Mr. Rosing said today that the loss would run in excess of \$1,000. Radios, spotlights and many other accessories were taken as well as two complete tool kits, property of Floyd Gyger, Jr. and various other tools.

Frank Valenta of Lake County sheriff's office was in Antioch this morning to make an investigation, and efforts to identify fingerprints taken in various places in the garage will be made.

The theft was discovered by Mr. Rosing when he went to the garage this morning at 7 a.m., and discovered the doors to the bump shop were open. The thieves are supposed to have had a truck in order to carry the amount of merchandise stolen.

Businessmen Divided On Desires of Nights To Keep Stores Open

Antioch business men are just about evenly divided on their opinion as to what nights they desire to keep open during the daylight savings time, a survey conducted by the Lions club reveals.

While making no attempt to establish a night for universal opening, the service club merely conducted a poll of 27 business places as to the opinions of the owners.

They found that of that number nine wanted to open on Friday nights, and nine wanted to open on Saturday nights. Of the 18, seven would stay open both nights.

There were nine, however, who don't want to open nights at all.

And that's that.

Antioch High Loses To Palatine 5 to 3, And Marengo 9 to 5

Poor base running coupled with errors lost Antioch's game to Palatine here last evening 5 to 3.

Ward of Palatine got a home run with no one on base, and his teammate D. Larson got a double under the same circumstances. Pregenzer of Antioch got a triple with bases empty.

Palatine got five runs, six hits and made two errors, while Antioch High got three runs, five hits and made seven errors. Batteries were Antioch—Lubkeman and Renter; Palatine—Schrage and Zollick.

The Sequots lost to Marengo there Tuesday night 9 to 5. Pregenzer's pitching was wild, accounting for passes and runs. Finnian and Piskie pitched for Marengo. Renter and Asheford were the catchers.

Antioch will play Harvard there tomorrow, and Hebron here probably Monday or Tuesday. A rained out game with Grayslake will be played the forepart of the week.

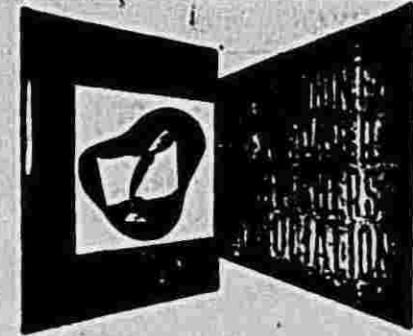

The Sequots are battling for fourth place among the nine teams in the league.

Lions Carnival Aug. 1 to 5. Directors of the Antioch Lions club met Monday evening in planning the carnival set for Aug. 1 to 5, and hearing a report on the fishing college which the organization sponsored

To point to the obvious, this country, in company with most of the allegedly civilized world, is living on a war economy. Today's tremendous national income and "prosperity" is to a very great extent the direct result of wars—past, present, and potential.

"One year after Korea, the U. S. finds itself well along the road to the garrison state," said Business Week in one of its June issues. "Military buying now is the biggest single force in the economy."

"Between June, 1950, and this June, deliveries of military goods have doubled. In the coming year, they are due to double again. Toward the end of 1952 or possibly the first quarter of 1953, they will reach the maximum demanded by present mobilization plans. By then the U. S. will be channeling 20 per cent of its national output into defense and defense-supporting production."

The effects of rearmament naturally vary greatly from industry to industry. In some fields, such as electronics devices, military orders are taking most of the output now and in time may take virtually all of it. The aircraft industry is 95 per cent devoted to defense work. And, of course, a very high percentage of metals—steel, copper, nickel—are going for military and allied uses, and the proportion is due to continue to rise.

As Business Week puts it, "Even though military orders are fitting fairly smoothly into the economy, they are putting a strain on manpower and materials supplies. The big complaint of defense contractors all over the country is: We can't get an even flow of materials, and we can't get the workers we need to process the materials we do have." The magazine quotes one St. Louis manufacturer as saying that, in spite of his defense order priorities, he had to buy materials in the black market. It quotes a West Coast producer as complaining, "You can get people all right, but not workers. They haven't any skills; they haven't any interest. They just stand

there." This manpower problem, in all probability, will be the toughest nut to crack in the long run. It is estimated that by the end of the current year about 8,000,000 civilians will be needed in defense jobs. A very substantial part of them will have to leave work in what is considered nonessential enterprise and move into the essential industries.

However, few think that severe civilian shortages will develop, save in a few specialized lines, unless a big war comes along. The belief is that American productivity can handle the defense load and the normal civilian load at the same time. Many kinds of goods are actually in surplus supply now, as the recent price wars in New York and other cities demonstrated. Those wars were largely the consequence of excessively large inventories—consumer buying hadn't been as great as had been anticipated. So, when the Supreme Court knocked the Fair Trade laws on the head, dealers began unloading at prices people would pay.

At any rate, the sad fact is that war is again dominating our whole economy. Military buying is now running at the rate of \$26,000,000,000 a year. It will rise swiftly and sharply.

GRASS ROOTS OPINION

ANAHEIM, CALIF., BULLETIN: "Our nation is one of the few in the world in which free thought, criticism and truths can still be presented to the public. We take it for granted that this freedom will continue. But the present Presidential regime realizes the value of the press and its ability to mould and measure public opinion and reaction. Every day some new measures are introduced that would place newspapers under governmental censorship. So far these measures have been defeated or are amended to become worthless. A free press means a free people. We must remain alert to keep it so."

PHILADELPHIA, PA., TRADES UNION NEWS:

"Karl Marx, the fellow who wrote the creed of communism, had something to say about taxation. He said that capitalism, which means our system of free initiative, enterprise and progress, will eventually be destroyed by 'taxes and still more taxes.' He even predicted that democratic, capitalist countries would, if left to their own devices, finally tax their economic systems to death and thus bring in communism. Well, taxation can do just that, if carried too far. The people who are continually fighting for more tax money to spend, even though their proposals may be excellent and even though some of the additional tax money might be used to benefit the people generally, should take the Marxian precept to heart. Taxes can kill our economy."

MADISON, GEORGIA, NEWS: "There seems to be some in Washington that are afraid the McArthur-Truman-Atcheson controversy will reveal our plans to the Russians... The thing that we think they are most worried about is that the people are about to find out how near Communistic our government has become."

MILLBURN

July 29 will be Millburn Home Sunday at Millburn church with services at eleven o'clock followed by a pot-luck dinner in the church dining room. Rolls-butter-coffee and dessert will be furnished by the church. Invite your friends to attend this service.

In the absence of Rev. L. H. Messersmith, services at Millburn Congregational church Sunday, July 22 will be in charge of Rev. Roy Taylor, summer student at Chicago Theological Seminary.

Millburn Maiden's 4-H club met at the home of Ruth Haisma, July 12. A demonstration of "Candle Salad" was given by Ruth Ann Haisma. Plans were discussed about the 4-H booth at the County Fair and a committee appointed to decorate the booth. The next meeting will be held at the home of Phyllis Lahey Tuesday afternoon.

Mrs. Herbert Messner and Mrs. Don Holem visited Peter Peterson, patient in T. B. ward at Veteran's hospital at Downey Saturday afternoon, and took refreshments and reading matter for him. Mr. Peterson, who was adopted by Millburn Unit of Home Bureau, seemed to appreciate their kindness very much.

Mrs. Myrtle Savage, Mort Savage, Miss Josie Mann and Albert Smith were dinner guests at the Harvey Mann home in Waukegan Tuesday evening.

Mr. and Mrs. James O'Connor and family returned Saturday from a month's visit with relatives in Sister Point, Michigan.

Mrs. Theresa Sheldon and daughter, Mrs. Katherine Thompson of Fourth Lake were callers on the Ed Hoffman home Monday evening.

Mrs. Paul Murphy and sons of Waukegan spent Tuesday with Mrs. Howard Bonner.

Susan and Lynn Edwards of Libertyville spent Saturday afternoon at the Frank Edwards home.

Mr. and Mrs. W. C. Upton left Wednesday with friends from Milwaukee on a week's auto trip to the Smoky Mountains and other points of interest.

Mrs. Ethel Saunders of Plattsburgh, New York arrived Saturday for a week's visit at the home of her daughter, Mrs. George De Young.

Homemade Freezer Serves Farm Needs Farmers Turn to 'Build Your Own' Once More

With labor costs up and appliances growing scarce, many farmers are beginning to "build their own" once more. One example of what can be done with cinder blocks and insulation—plus a few spare hours of labor—is the homemade food freezer shown below.

The freezer is tucked away in a convenient corner of a farm home basement. It holds a side of beef

and all the surplus cherries, strawberries and lima beans grown on the farm. Besides farm produce, this homemade appliance makes an ideal storage place for left-overs, ice cream and large quantities of special cuts of meat processed at a neighboring locker plant.

Like other freezers, however, it must be remembered that freezing does not improve the quality of the food stored in them. You get out of a freezer only what you put in. Also, farm wives are cautioned about correctly packaging freezer food. Included among acceptable packaging materials are moisture-proof vegetable parchment paper, moisture-proof cellophane (which can be heat-sealed), aluminum foil, cellophane-lined containers, freezers bags and approved cartons. The use of such material are necessary regardless of whether freezers are purchased or homemade.

"Unless properly packed frozen foods may deteriorate. The freezer, illustrated, is operated with a $\frac{1}{4}$ horsepower compressor. Rafters above the appliance are used for the storage of canned fruits.

Intestinal Disease Hits Numerous Swine Herds

We saw, some weeks ago, that a basic Christian principle for right living is the value of individual persons. This holds good for economies as well as for all other areas of life.

What happens to the man who cannot earn a living? If he becomes an "object of charity," in a short while he loses ambition and self-respect. And if he gets no charity, he starves.

So any system or arrangement of society, or any action or condition permanent or temporary making it impossible for a man to earn his own living, is harmful to human persons and therefore sinful. No one, in short, has a right to a living, but every one has the right to earn a living.

The Risks of Riches

So far, you might say that Christianity only says what everybody with common sense can see for himself. But Christianity goes further and says something that most people forget: that getting rich is more dangerous than desirable.

The Bible urges us all to earn our own way; but it does not urge us to get rich. Christ warns us that life does not consist in the "abundance of things" a man possesses. There is no virtue in being as poor as possible.

Still, on the other hand, the more a man's property piles up, the more he is tempted to certain sins: the sin of greed, wanting more than our share, more than we can wisely use; the sin of pride, wanting to have more than any one else in sight; the sin of selfishness, wanting to use what we have for our own benefit exclusively; the sin of hoarding, wanting to fill barns or bank accounts for no particular reason except just to see the pile grow; the sin of materialism, measuring success in terms of dollars.

The main question is: Why do we want it? To have something good, or to do good with it? The big Christian question about every relationship and transaction, economic and otherwise, is a question about people. What is this going to do to people? To me? To those who depend on me? To the community?

Pope Pius XII used two words about the economic life which Protestants will agree are of top importance: Make it more human, he said, and more Christian.

Copyright 1951 by the Division of Christian Education, National Council of Churches of Christ in the United States of America. Released by WNG

This knee rest will take the strain out of gardening when weeding or performing some similar operation where it's necessary to work on your knees. The base is large enough so that it won't sink into soft ground. The edges of the three vertical pieces should be rounded. Sufficient slack is left in the canvas cover to provide comfortable rests for the knees.

Side-Dressing Corn Crop With Nitrogen Pays Off

Prof. C. J. Chapman, University of Wisconsin extension agronomist, reports that side-dressing corn with nitrogen fertilizer in late June paid off in an extra $4\frac{1}{2}$ tons of corn silage per acre on one Dane county farm last year.

He says the amount of nitrogen to apply depends on the soil's fertility level. He recommends at least 49 pounds per acre. Under some conditions this could be increased.

LAKE VILLA

Rev. and Mrs. Dwight V. Dixon of Tolstoy, So. Dakota spent Saturday and Sunday as guests of Mr. and Mrs. Charles Kelly, Rev. Dixon was former pastor here and was guest pastor of the worship service on Sunday.

The boys and girls who were at the Lake Geneva Camp last week came home Sunday and Karen and Donna Martin, also Irene Perry went to spend this week at the camp.

The W. S. C. S. is omitting its meeting this week and the next meeting will be on Wednesday, Aug. 1st. The luncheon sale and party of last week was a success in every way, but not quite so well attended as it could have been.

Mrs. Mabel Holst and cousin, Mrs. Bessie Grimes of Chicago, were guests during the past week of Mrs. Holst's sister Mrs. Bessie Boyer at her home in Buena Park. Mrs. Boyer's granddaughter Jill Boyer is with Mrs. Boyer for a few weeks.

The Boy Scouts left Tuesday for Camp Wa-Ka-ja-wan in Wisconsin for the annual outing.

Mr. and Mrs. Albert Kapple were notified last week, Thursday, of the birth of a daughter to Mr. and Mrs. Charles Rother of Chicago, who also have another daughter and a son. Mrs. Rother is the former Janice Kapple.

Mrs. Henry Reidel was a sur-

gical patient at a Waukegan hospital during the past week.

Mrs. Albert Kapple and Mrs. Frank Hamlin were Chicago visitors last Friday.

Mr. and Mrs. Gordon Blumenschein drove to Winona, Minn. early this week on a business trip.

Leo Barns spent the past week at St. Therese hospital where he was a medical patient, and for observation, X-rays and treatment.

Mr. and Mrs. Jack Rhoades and Kerry left Sunday on an auto trip into N. Wisconsin and Canada during his two weeks vacation from work on the N.W. railroad.

Mrs. George Helm returned home last Thursday from Victory Memorial hospital where she had been a surgical patient and is recovering nicely.

Mrs. Virginia Whittemore and daughter Anne of Flossmoor spent last week with her mother, Mrs. Clifton Bray at Buena Park.

The date for the annual carnival sponsored by the Lake Villa fire

department is Aug. 17, 18 and 19 when the usual attractions will be at the Lake Villa park for your enjoyment. Plan to meet your friends there.

Mr. and Mrs. Eugene Anderson, nee Betty Reinebach of Skokie are receiving congratulations on the birth of their third son on Thursday, July 12 last week.

Mr. and Mrs. Lester Hamlin took some of the Scouts to Camp Wa-Ka-ja-wan on Tuesday and later

enjoyed a motor trip through Wisconsin.

Miss Marlene Nader, student nurse at St. Elizabeth hospital in Chicago, is enjoying month's vacation at her home with her parents, Mr. and Mrs. Joe Nader.

The Pinochle Club met Tuesday last week with Mrs. Jake Wallace at her home south west of the village for pot luck dinner followed by games of Pinochle during the afternoon.

Robert McCann, Jack Mahoney, John Shields, Lawrence Reidel and Jack Vos, who joined the Seabees last February came home by plane last week on a 13 day furlough to visit relatives and friends. They have been stationed in Port Hueme, Cal., and on their return to

camp expect to be assigned to station. Mrs. Mary Blondin, husband, formerly of Lake Park and now of Folsom, called on him last week. She has son and family in

Card of Thanks

I wish to thank my friends for the many cards, gifts, and other acts of kindness during my recent illness.

Ruth Baethke

Spring Pasture

Cows fed lush spring pasture can be fed a low protein concentrate mixture of farm grains, such as corn and oats, corn and cob meal, or milo and oats. Later, when pastures become mature, the protein content of the mixture should be increased.

LEGAL

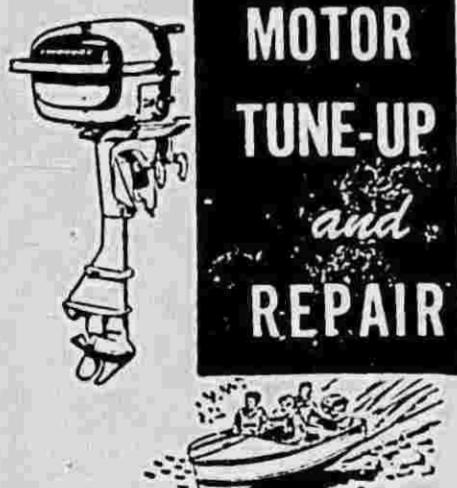

HIGHWAY NOTICE
A Petition Having Been Presented to the COMMISSIONER OF HIGHWAYS of the Town of Antioch in the County of Lake to vacate Road upon the following described route, to-wit: Beginning at the intersection of White Road with Savage Road at or near the southeast corner of the west half of the southwest quarter of section 14 in Township 46 North and Range 10 East of the Third Principal Meridian. Thence West approximately one-half mile, thence southwesterly along said White Road to a point approximately 400 feet more or less, measured along said White Road northeasterly from the north and south one-quarter line of section 22, in Town and Range aforesaid.

The Commissioner Hereby Gives Notice that he has fixed upon the Monday the 23rd day of July, 1951, at the hour of 9:30 o'clock in the forenoon, at the corner of Savage Road and White Road in said Town, as the time and place he will meet to examine the route of such road, and to hear any reasons that may be offered for or against the vacating of said Road, when and where all persons interested can be heard.

Dated at Antioch this 16th day of July, 1951.

Robert J. Webb
Commissioner of Highways

SOCIETY EVENTS

EPISCOPAL SUMMER YOUTH CAMP CONTINUES NEXT WEEK

The Town and Country Summer Youth camp sponsored by St. Ignatius' Episcopal church, Antioch, and St. Andrew's Episcopal church, Grayslake, will continue until Friday, August 3. Almost 90 children have registered thus far, and there have been only three "drops." The St. Ignatius' Church School bus leaves from the church for Grayslake every morning from Monday thru Friday at 8:30, returning by 12:30. Registration is only \$1.00 a week, and is not confined to churchmembers.

Swimming is offered once a week at the Round Lake pool, movies are shown each week, organized games are conducted, and many projects undertaken. Next week the older children will go on a picnic to Kenosha by car. The children will present the play, "The Juggler of Notre Dame" during the final week.

Sue Garland Guest of Department of Conservation

Sue Garland, daughter of Mr. and Mrs. George Garland, is spending this week at the Department of Conservation at Lake Villa, as a guest of the Sportsmen's Co-operative Association of Lake County. As a member of Miss Bean's class in English 3 at the Antioch Township high school, Sue wrote an essay on "The Need for Conservation of our Natural Resources," winning her the above recognition.

New House for Jedele
Norman S. Jedele of the R. & J. Chevrolet Company of Antioch is building a new home out on Tiffany Rd. Homer LaPlant and William Gray are doing the masonry and carpentry work, Irving Carey is doing the plumbing and heating, Charles Wertz will put in the well and the Wilton Electric company will do the electrical work. Edward P. Cranley will supervise the construction for Mr. Jedele.

Still Bears Ruggles Name
The carnival supplied the American Legion last week still goes under the name of the H. J. Ruggles company and not as the Antioch Carnival Co., Ruggles says. He, however, is an Antioch Township resident.

Antioch Woman's Club To Hold Annual Party
The Antioch Woman's club will hold its annual card party August 16 at St. Peter's Hall. Tickets will be available for members at an early date.

Silver Lake Here Sunday
The Veterans of Foreign Wars baseball team will play Silver Lake here at 2 p.m. Sunday. Either Olsen or Bushing will be the starting pitcher for Antioch and Faber for Silver Lake. The V. F. W. did not play Sunday owing to a tournament in Wisconsin in which it was not eligible.

Antioch Acorns Plan County Show July 30
The Antioch Acorns 4-H club met at 2 p.m. Tuesday, July 17 at the home of Mrs. Jess Sobe. The girls talked about the county show on July 30.

Pvt. George E. Sass Takes Army Engineering

Ft. Leonard Wood, Mo. — Pvt. George E. Sass, son of Mrs. Gertrude Sass, Pettie Lake, Antioch, Ill. has completed a 14-week training cycle here with a unit of the 6th Armored Division.

As a trainee he received six weeks basic training in the fundamentals of army life and the use of infantry weapons. He is now completing an additional eight weeks engineer training.

Felter's Assoc'n Picnic Extends over Three Days

The annual Felter's Association picnic, an event well known to the residents of Antioch and adjacent towns, will get under way at 6 o'clock tomorrow night and continue all day Saturday and all day Sunday.

As usual, the picnic will be held in South Beach park of Felter's Subdivision—one and a half miles west of Antioch on Route 173. The event is public.

Not only has the picnic extended from 2 to 3 days for this year's event, but the scope has also been broadened to include a large variety of concessions and amusements. Many games and contests have been scheduled for all age groups and hundreds of valuable prizes will be distributed during the three days of the event. A wide variety of refreshments, including a lavish plate lunch, will be available at all hours. And for those who want to swim, the sandy beaches of Lake Catherine are immediately accessible.

All proceeds of the picnic are used exclusively for the maintenance and improvement of Felter's subdivision, one of the finest in the lakes region.

THE ANTIQUE NEWS, ANTIQUE, ILLINOIS

Loubert's Tour West
Mr. and Mrs. Fidele Loubert of Zion have returned from a three-week trip through the West. They stopped at many places of interest such as the Hoover dam, Mount Rainier and Yellowstone park. Two days were spent in San Francisco with Mrs. Loubert's niece, the former Gloria Borregard. Their trip covered 16 states. They reported much land under water and bridges out on their return.

LARGE CROWD IN TOWN
A large crowd was in town Saturday afternoon and evening. The Legion carnival had a big attendance and much money was spent at the various amusements. Local merchants reported good business. Favorable weather is continuing this week.

Uncle Sam Says

In the manner of your Navy—"NOW HEAR THIS": You can build up assets of \$4,329 cash in 10 years by adopting a single 3-step plan for saving money. Briefly: decide to start saving now, before you even touch your pay—save systematically, a definite small sum each week—save automatically, as well as today for the purchase of U.S. Savings Bonds by the Payroll Savings Plan where you work. IT'S JUST THAT SIMPLE. U. S. Treasury Department

CHRISTIAN SCIENCE CHURCHES

That eternal life is God's precious gift to man and carries with it health, holiness and harmony, will be explained in next Sunday's services in all Churches of Christ, Scientist. The title of the Lesson-Sermon on Sunday, July 22, is "LIFE."

The Golden Text is from Romans 6: 23 "The wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord."

Bible selections (King James Version) in the Lesson-Sermon include these passages:

"He that is our God is the God of salvation; and unto God the Lord belong the issues from death . . . For he is not a God of the dead, but of the living: for all live unto him" (1 Pet. 4: 8; 20; Luke 20: 38).

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include:

"The Scriptures imply that God is All-in-All . . . The Scriptures also declare that God is Spirit. Therefore in Spirit all is harmony, and there can be no discord; all is Life, and there is no death. Everything in God's universe expresses Him . . . Because Life is God, Life must be eternal, self-existent. Life is the everlasting I AM, the Being who was and is and shall be, whom nothing can erase" (pp. 831, 289).

BALLOT IS BORN

America, from the tiniest unit of community life up to the big White House on Pennsylvania Avenue, is built on the ballot, and bossed by it.

Shockproof Homes

Lesson for July 15, 1951

EVERYBODY who begins a home

Will Trail Ladies Play Leader

— Wanted: a woman who is alone and like it. Thousands of them, but misguided, females.

A job applicants must have a good knowledge of psychology and a capacity for endless talking. Their prospective charges, who serve the National Geographic Society, are among the most unpredictable of their sex, belonging as they do to the sheep family.

Today the wages offered for sheepherding are the highest in the occupation's long and colorful history—about \$250 monthly and found (food and sleeping equipment). Yet the shortage of competent herders in the U.S. is so acute that late reports blame it for an "alarming" decrease in the nation's wool production. In an attempt to remedy this deficiency, efforts are being made to bring to this country groups of the finest sheepherders in the world, the Basques of northern Spain. They are reputed to have not only the necessary experience but—more important—the indispensable temperament for the job.

All Jump

Such temperament appears to be alien to most Americans, whose disengagement with sheep tending has gathered the canard that herders are either eccentric already or likely to become so. Actually the opposite is nearer the truth since resourcefulness and understanding of the erratic feminine behavior in the sheep family are necessary to match and master flighty woolies. (Most males are slaughtered for meat while lambs.)

The first concern of a good herder is to keep his flock together, for "a sheep alone is a sick sheep." Essentially timid animals and easily frightened, sheep follow the dictates of the herd instinct, with few exceptions. They hate to go over the brow of a hill because of what might be on the other side, yet they will blindly follow a leader.

Little Lost Lambs

The herder's problems are multiplied during lambing time. A newborn lamb a few feet away from its mother is lost. The mother can only locate her stray lamb by smell, which would mean sniffing through an entire herd. Most ewes are conscientious mothers but some take maternal duties with exasperating indifference.

One remedy is to imprison the ewe with her lamb, holding the mother still while the baby feeds until she accepts responsibility. If the ewe refuses, she is marked for mutton and her lamb must be cared for in other ways. Clothed in the skin of a dead lamb, the unwanted "bum" may be adopted by the dead lamb's mother. Otherwise the "bum" must be bottle-fed by the herder.

After lambing season, from March through May, the herder looks forward to shearing in June. The heavy wool is another hazard in the sheep's life. An animal caught on its back and weighed down by wool may die within the hour if the sheep herd does not help it to its feet.

One experienced herder voiced this despairing opinion of his charges: "A sheep is the one animal that's born with an ambition to die as soon as possible."

Experts Support Return To Old-fashioned Methods

CHICAGO—When it comes to baby care, the old-fashioned way is best, a Detroit physician told the Illinois State Medical Society.

Speaking before the sections on Obstetrics and Gynecology and on Pediatrics at the Society's 111th annual meeting in the Hotel Sherman, Dr. John C. Montgomery of Detroit cast his vote, based on long experience, against the modern hospital's newfangled central nursery.

The new idea in obstetrics is called "rooming-in." It means placing the baby with the mother immediately after birth and making her and the father responsible for its care from the beginning. Hospital practice of recent years has been to separate them until they leave the hospital, except for brief visits.

"Rooming-in is being accepted in a wider area throughout the country," Dr. Montgomery said, after an extensive review of the pros and cons. "It is nothing new, but rather a return to an older method of care and one which is still employed in many parts of the world."

One Filing on High Wire Changes Boy's Ambitions

MEMPHIS, Tenn.—Audie Jessie Baker, 10, always thought that he wanted to be an acrobat when he grew up. Recently, however, he had cause to change his mind.

The youngster was watching some men stringing wire in back of his house. When they began to take slack on a piece of wire, he grabbed it.

Up he went like a shot—30 feet into the air. It was all fun, until he looked down. His screams attracted neighbors, who rigged a blanket net for him to drop into.

Now he wants to be a preacher.

American Foundation for Animal Health

Believe Lake Catherine Waste Problem Solved

No action was taken by the State Department of Conservation last week when an investigation it was found that a garbage disposal problem at Lake Catherine could easily be corrected and an outlet of a drain into the lake was also fixed. The tavern was found little to blame.

Tigers; Yanks....

(Continued from page 1)

ond. The Yanks really played good baseball, until Scully was put in pitching, which opened up that hole between first and second again.

Yanks 17 12 6
Cubs 13 8 13

Tigers Win From Giants

The weather and game both were hot. The side-lines saw a lot of activity from the parents and friends of the players. Some were hoping that those mighty Giants would be taken down a peg. The parents of the Giants were hoping that there would be a clean slate in the losing column of the standings for those Giants.

This was a game worth watching, also. Those Tigers have a pitcher by the name of Faust who really out-pitched Larson. Larson lost his own ball game in the fifth, when he gave a walk to Hart, let Faust triple, then gave walk to Buren and Kaiser which loaded the bases. He then walked Edwards which brought in Faust and hit Lubkeman with a pitched ball, which brought in Buren. All this happened with two strike outs, before the rally by the Tigers.

Line-up

Tigers	Giants
Lubkeman	1st O. Christensen
Hart	2nd Carney
Kaiser	3rd Behrens
Edwards	ss. L. Christensen
Hunsaker, Koch	rf. F. Lucas
Schwab	cf. J. Lucas
Buren	1f. Vos
Faust	p. Larson
Wertz	c. Meyer
Team	Runs Hits Errors
Tigers	5 6 4
Giants	4 8 0

This game went seven innings because of the tie of four to four at the end of the sixth.

Farmers Are Warned About Use of Poisons

Respirators Advised For Dusting Operations

This summer American farmers and gardeners will use about 1,000,000 pounds of bug-killing materials, much of it containing parathion, especially those highly effective on the destructive leaf aphid.

Insecticides containing parathion are used a great deal by commercial fruit producers.

Now produced by several chemical companies, parathion in its original state is a brownish liquid. But as a commercial insecticide it

Regal Retreat
At Marly-le-Roi, now a Paris suburb by the corkscrewing River Seine, French kings, surfeited with palace pomp, found escape at the huge hunting chateau built by Louis XIV in the 1680's. To feed the fountained gardens of Versailles, an elaborate "water machine" was built at Marly, lifting water from the Seine to an aqueduct which still leapfrogs the forest. The pumping station, modernized a century ago, is still in operation.

In Garage or Kitchen
The pot cleaner, Silvlocks, made of knitted Monel mesh which does not rust or splinter, is as much at home in the garage as in the kitchen. This household item has been found to work as well on a muddy tire as on a kitchen utensil.

Moving the Bait
Bait just tossed into the water and let lie will not catch nearly so many catfish and suckers as will bait that is moved occasionally, sometimes even dragged very slowly over the bottom of stream or pond.

Uncle Sam's Radio
Transmissions Soon May

Be at Sea

ON, D.C.—Uncle Sam is speed up his "cameraman" against the Communists. The newest wrinkle developed by the Department of State is known as "Operation Sparko." It is a powerful medium wave station on a fast ocean liner. Approved by both the military staff and the naval advisory council, the project was authorized by President

at floating station is scheduled to be in operation sometime this month. If it proves successful and effective, four more will be added to form a ring of radio relay stations being built around the world.

Although existing funds are being utilized to begin operation of the first seagoing transmitter, the completion of the project will depend upon passage of a \$97,500,000 apportionment bill, needed to finance the rest of the program. Stiff opposition, however, has been met in Congress.

The house appropriations committee, in fact, recommended that the figure be cut as low as \$9,533,000, despite the appeal by Truman for the adoption of the complete transmitter program. Although the president did not mention the amphibious phase specifically, it is understood that the joint chiefs of staff have fought for it as a potent weapon in the cold war and a nucleus for a world-wide propaganda system in the event of another world conflict.

There are many secret ideas behind the project, as well, the most apparent, however, being that it will complete the ring of the U.S. radio relay stations around the world and give more scope to broadcasts everywhere.

Angler Who Fished Banks
Soon Is Netted by FBI

NEW YORK, N.Y.—The FBI recently announced the capture of a unique angler who fished not for fishes, but for greenbacks behind teller's windows in banks.

The "fisherman," Peter Hanson, 51, was captured with one of his favorite rods—a paper-covered ruler with a wad of chewing gum on one end.

Agent Edward Scheidt said the angler "poached" on a bank in Kansas City and one in Weehawken, N.J., by fishing through the teller's window. Fingerprints on a rod he left behind in the Kansas City bank led to his capture.

Asiatic Religious Belief
Festered 'White Elephant'

An ancient Asiatic religious belief, a financially embarrassed king, and an animal's liquor bill, were responsible for bringing to our civilization the term "white elephant" which has come to mean any regrettable and unprofitable possession.

Research experts with the World Book Encyclopedia, examining the customs of mankind, have discovered that in Siam a white elephant was considered to possess the soul of a dead god. Therefore when a white elephant was captured, it immediately became the sacred property of the king—and was baptized, worshipped, and finally buried and mourned like a human being. One King of Siam gave the white elephant saying its probable start when he initiated the custom of giving the elephant to any member of his court who has displeased him. The elephant-god could do no work, could not be ridden, and the huge cost of its upkeep soon meant financial ruin to his new owner.

A British King, Charles the First, in 1629, had the misfortune to receive a white elephant as a gift from Siam. Unfortunately, Charles was financially embarrassed, due to an un-cooperative Parliament, and even considered selling the crown jewels to raise funds. The cost of keeping the elephant was so high that the King and Queen had to give up their customary vacation at Bath. The record regarding the elephant's maintenance makes note of the fact that "from the month of September until April, he must drink, not water but Wyne, and from April unto September he must have a gallon of Wyne a day."

It is believed that this old occurrence firmly implanted the saying "white elephant" in the English language.

Manhole Cover Blows Top;
Man Flies Through Air

JANESVILLE, Wis.—There are many stories about people who fell through manhole covers, but Townsend Tovland, 29, of this city, is perhaps the first to have one explode beneath his feet.

Hovland had the misfortune to be standing on a downtown manhole cover when a sewer blew its top. He was tossed into the air and came to rest about four feet away. For no explained reason the cover had suddenly lifted into the air in an unexplained explosion followed by a burst of flame. Hovland and eight others waiting for a bus on the street corner were taken to a doctor's office and treated for minor burns.

Power and light officials said that the blast could have resulted from a broken gas main or from sewer gas.

He Walks and Talks,
Is Fairly Smart;
Still Is not Human

MANSFIELD, Ohio—Found at last—the perfect man. Well, almost perfect, anyway. He walks, talks, smokes, is able to count and to recognize colors, and has never lost his temper.

The only catch is that he is not an ideal husband. In fact, he is not even human. He is Elektro, Westinghouse's mechanical man now touring the country with his dog, Sparko.

The latest, and more advanced,

descendant of Televox, 1927, and Willie Vocalite, 1932, most widely-traveled mechanical man, Elektro was the brainchild of Joseph Melton Barnett.

Elektro has a vocabulary of 77 words, which he speaks with clarity and decision; he walks freely, moves his head, arm and fingers; counts on his fingers, says "red" or "green" when these colors are placed before his eyes; smokes cigarettes and, after a fashion, sings. He has a limitless amount of energy—getting it all from the nearest light socket.

Elektro would make a good football fullback. He has 18 inch feet and a chest expansion of 82 inches.

His chest is always expanded in a manly fashion because, like the rest of his body, it is made of aluminum over a steel frame. He'll never be in need of a psychiatrist because his 60 pound brain consists of 82 electrical relays. These operate his nervous system of motors, levers, gears and chains. His spinal column and nervous system is made up of hundreds of miles of wires, which give him a total of 28 motions.

Sparko, his electrical dog, trots at his master's heels. He performs such tricks as begging, standing up, sitting down, barking and wagging his tail. Also made of aluminum, he is 17 inches high at the shoulders, 42 inches from the tip of his nose to the tip of his tail, and weighs 65 pounds. He is motivated by two motors, each rated at one-twentieth of a horsepower.

Codfish Eats Lobster

The codfish ranks in the Maine summer tourist in its appetite for lobster. The cod doesn't balk even at the hard shell of an eight-inch lobster, although its particular taste is for young lobsters from two to four inches long.

Many Patents Needed
It required 60 patents to secure the invention of vulcanized rubber by Charles Goodyear.

SMART MONEY KNOWS WHERE TO GO AFTER READING THE ADS IN THIS NEWSPAPER

Highway Signs
Highway signs in French Morocco are hard to miss. Many are walls of sun-bleached concrete 10 feet high, bearing the names of towns, distances and minor hazards of the road painted in black in both French and Arabic characters.

Select From Our Wide Variety and Save!

CUSTOMERS' CORNER

"Let the buyer beware" is an old saying.

But at A&P, we want our customers to have confidence in what we tell them and what we sell them.

That is why you can shop at your A&P with the assurance that if for any reason you are not entirely satisfied with your purchase, your money will be cheerfully refunded.

If anything should happen to shake your confidence in A&P, we would like to know about it. Please write:
